

Imagine a healthcare benefit that costs you nothing. But could save your employees a bundle.

We did. And the result is SingleCare.

Gallagher Perks has teamed up with SingleCare to provide your employees with great discounts on prescriptions, dental care, vision care and low-cost video doctor visits.

Everyone talks about the high cost of healthcare. But we've done something about it. We're SingleCare, and we're thrilled to have been selected by Gallagher Perks to deliver great savings on health services to your employees. We're available nationwide, we negotiate the lowest possible prices, and we pass the savings on to your employees. There are no premiums, no subscription fees, and no hidden costs. Just the opportunity for great savings.

We're the perfect choice for your employees, regardless of your current benefit plan. You have nothing to lose. But your employees have much to gain.

gallagherperks.singlecare.com

SingleCare. The one card for lots of savings.

We don't have to tell you that premiums and deductibles have been on the rise. SingleCare is a valuable supplement to your current benefit plan. You can even offer it to contractors and non-eligible employees. SingleCare is the only health discount card your employees will ever need.

SingleCare fills the gaps insurance doesn't cover, including capped benefits, restricted formularies, non-covered medications and waiting periods. Our network is nationwide. And we're a priceless asset for employees with limited coverage, or anyone who wants to save on out-of-pocket costs.

Prescriptions

Save up to 80%

Dental

Save up to 55%

Vision

Save up to 75%

LASIK

Save \$800

Video Doctor Visits - Only \$45 a visit

SingleCare is not insurance. There are no membership fees, or per member/per month charges. The card costs nothing—your employees pay only for the services they use. They present their SingleCare card at the pharmacy or schedule their dental / vision appointments at gallagherperks.singlecare.com, and automatically receive the low SingleCare price.

A revolutionary online health marketplace with complete price transparency—so your employees will know what they'll owe before they go.

Why Employers love us.

Employers tell us SingleCare increases employee satisfaction with their overall benefits plan, which can lead to reduced turnover, reduced absenteeism, and a more productive work force. Their employees see SingleCare as an innovative service and appreciate the benefit. And employers love the fact there that there are no subscription fees or ongoing charges.

Simple to use. Easy to save.

- Complete price transparency. Your employees will know the cost before they book an appointment or go to the pharmacy
- Our website is easy to use with user-friendly search tools for common services and medications
- High touch customer support, including a US-based call center and online chatting
- Enjoy convenient, paperless transactions
- Proprietary networks ensure highly competitive pricing
- On-demand business model, no commitment, no fees, simply lower prices on the health services used
- Our app lets employees search from mobile devices

If your employees like saving money, they're going to love SingleCare.

Every week, more than 50,000 people nationwide are becoming members and discovering the advantages of using SingleCare to save money on health services.

Here are some reasons why your employees will use SingleCare:

Prescriptions

Employees will use SingleCare to save when:

- They have no prescription coverage, or their benefit is subject to a deductible
- They need non-formulary drugs
- Their insurance copay costs more than the SingleCare price

SingleCare prices are often the lowest, however, we encourage everyone to compare prices to ensure they are getting the best deal on their medication.

Dental

Employees will use SingleCare dental services when:

- They have no dental coverage
- Their annual maximum has been reached
- They're insured but in a waiting period for major dental work
- They need adult orthodontics
- They have a "missing tooth" clause in their dental plan

Vision

Employees will see SingleCare savings when:

- They have no vision coverage
- They're looking for better pricing than their vision plan offers
- They want to save on glasses and contact lenses
- They want to save on LASIK corrective surgery

Video Doctor Visits

Employees will appreciate video doctor visits because:

- They cost just \$45 per visit, about one third the cost of an urgent care visit
- They can get the care they need without missing work
- They can access care when they're traveling
- Care is available 24/7, including holidays, and weekends
- They have no insurance, or their plan doesn't cover video visits

Frequently Asked Questions

What is SingleCare?

SingleCare offers your employees savings on FDA-approved medications, dental services, vision care, and video doctor visits. SingleCare has no subscription fees or premiums. Your employees pay only for the services they use—at a substantially lower price than they'd pay on their own.

How does SingleCare make money?

SingleCare collects a service fee when your employees use one of our services. The fee is built into the pricing we publish on the website, so there are no surprises and no additional fees. SingleCare only makes money when your employees save money.

What are the advantages of using the free SingleCare card?

SingleCare negotiates with providers, then passes the savings on to your employees. They will see the cost of their prescriptions or services on our website before they make any decisions, essentially shopping for health services like they'd shop for anything else they buy. This allows employees to compare pricing for prescriptions and health services with their insurance and choose the lowest price.

Is SingleCare insurance?

No. SingleCare is not insurance. We're a nationwide organization working to make healthcare more accessible and affordable. Through partnerships and contracts with providers, we're able to provide your employees access to high-quality care, and savings typically available only through insurance companies, but without the premiums.

If my employees have insurance, can they still use SingleCare?

Absolutely. Even if your employees have insurance, it's smart to check the SingleCare price. When our price is lower, they simply choose to use their SingleCare card rather than their insurance. SingleCare can even help them save on prescriptions insurance won't cover, as well as over-the-counter medications prescribed by their doctor.

The sooner your employees know about us, the sooner they'll start to save.
